Subject: Dimock Site Area for consideration

Bob/Lora,

We are working on getting some sense of how the site are would be defined (at least initially). Particularly, should EPA decide to sample residents.

Attached is a Google Earth representation of the affected area cited in the COA with PADEP. This looks like a good basis to start. It might need to be adjusted to include some roads, but I am not sure about that. Please provide me with ATSDRs thoughts about this.

thanks.

Rich
